

A serene sunset over a calm lake. The sky is a mix of soft blues, oranges, and pinks, with wispy clouds. The sun is low on the horizon, casting a warm glow. The water in the foreground is still, reflecting the colors of the sky. In the background, a dark silhouette of a forest lines the shore. A single rock is visible in the water near the shore.

Human Settlement on Mars

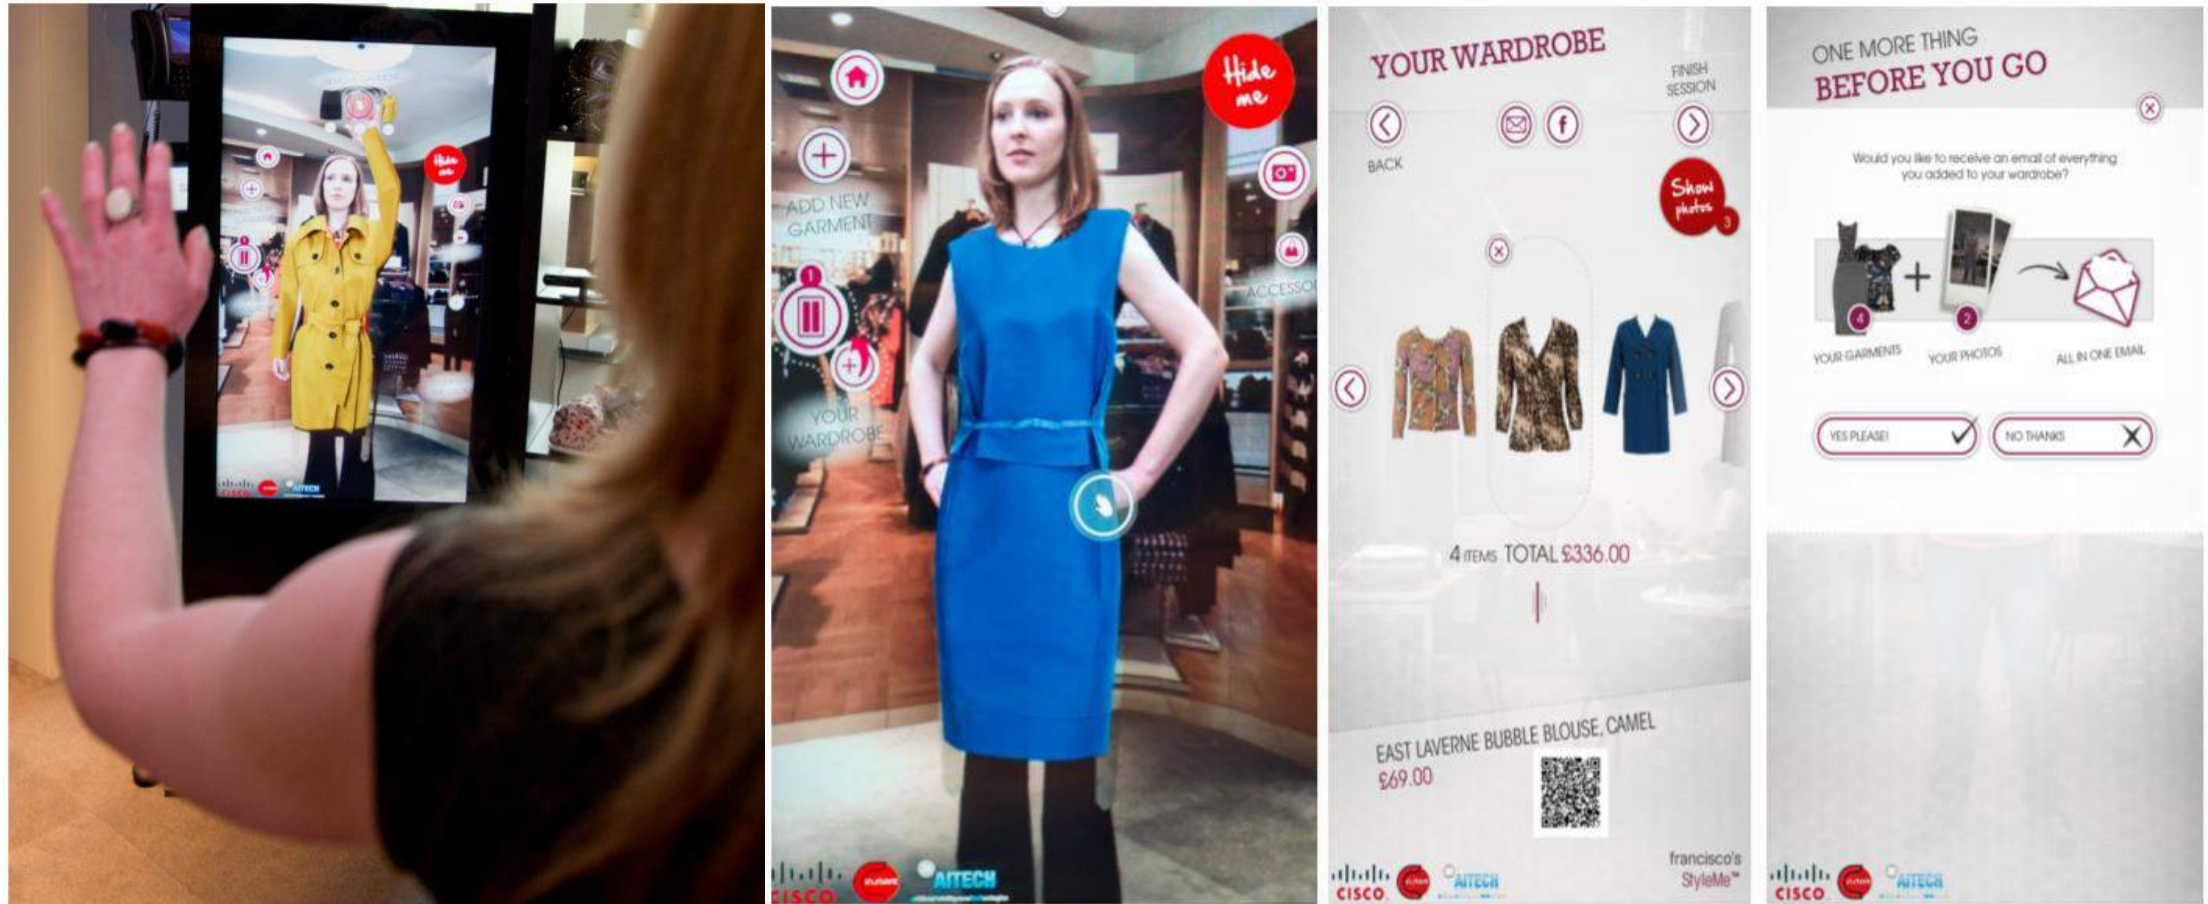

Mars One aims to establish a permanent human settlement on Mars. Several unmanned missions will be completed, establishing a habitable settlement before carefully selected and trained crews will depart to Mars. Funding and implementing this plan will not be easy, it will be hard. The Mars One team, with its advisers and with established aerospace companies, will evaluate and mitigate risks and identify and overcome difficulties step by step. Mars One is a global initiative whose goal is to make this everyone's mission to Mars, including yours. If we all work together, we can do this. We're going to Mars. Come along!

A scenic photograph of a sunset over the ocean. The sun is a bright, glowing orb in the center of the frame, casting a warm orange and yellow light across the sky. The sky transitions from a pale yellow near the horizon to a deep blue at the top. In the foreground, the dark silhouettes of palm trees and buildings are visible against the bright sky. The ocean is dark with gentle waves lapping at the shore. The overall mood is peaceful and serene.

Paldies!
